Introducing Orkestra™ Intrinsic® brand fungicide
Let the performance begin

For fast and long-acting disease control, add Orkestra Intrinsic brand fungicide to your nursery disease-resistance management program. Two modes of action perform in unison for protection against top-of-mind diseases such as leaf spots, powdery mildews, rusts and anthracnose. Orkestra Intrinsic brand fungicide, used during mid-production, provides effective disease control and plant health benefits, including stronger roots and improved plant resilience to stress.

Featuring a new BASF active ingredient, Orkestra Intrinsic brand fungicide provides highly effective control of foliar and soilborne diseases.

Rely on Orkestra Intrinsic brand fungicide for healthier, more consistent, high quality plants in your nursery.

- **Effective disease control:** Controls a broad spectrum of key diseases; formulated with translaminar stability to stay where diseases occur and also systemic acropetal movement
- **Dual modes of action:** Features two modes of action for greater efficacy and resistance management
- **Plant health benefits:** Delivers plant health benefits to help speed recovery from stressors like cold, heat, drought, and shipping
Effective disease control

- **Orkestra® Intrinsic** brand fungicide provides preventive, early curative, and residual control of key ornamental diseases, quickly stopping the growth of fungal cells.
- Controls a broad spectrum of key diseases such as powdery mildews on crape myrtles and roses, and *Myrothecium* leaf spot on foliage and woody ornamental plants.

Foliar, stem, and crown diseases are controlled for up to 14 days under moderate infection.

Soilborne diseases such as *Cylindrocladium*, *Fusarium* and *Pythium* controlled with drench applications are managed on 7-28 day intervals, depending on disease pressure and environmental conditions.

### Control of Japanese Ligustrum Cercospora (Cercospora spp.)

- **Orkestra Intrinsic** controls the following foliar, crown, and soilborne diseases:
  - Anthracnose
  - Crown and basal rots
  - Downy mildews
  - Flower and petal blight
  - Leaf spots
  - Powdery mildews
  - Rugs
  - Scab
  - Soilborne diseases
  - Stem or twig blights and dieback

---

1. **Orkestra Intrinsic** brand fungicide and **Pageant Intrinsic** brand fungicide statistically similar and different from Untreated Inoculated.

2. Partial data is shown. **Orkestra Intrinsic** brand fungicide is statistically different from Mural and Untreated Inoculated after two applications. **Orkestra Intrinsic** brand fungicide is statistically similar to Affirm; however, for **Orkestra Intrinsic** brand fungicide after 2nd application and for Affirm following 3rd application.

3. Applications 5/27 & 6/3 applied at rate 100 gal. An adjuvant needs to be used for best control of this disease.
