

PT[®] Wasp-Freeze[®] II Wasp & Hornet Insecticide

Information Sheet

Specially formulated to provide instant knockdown of wasps and hornets. Also labeled for spiders.

Active ingredient: Prallethrin

For use: Outdoors, in attics and in crawl spaces

Benefits:

- Spray can travel up to 15 feet, providing a safe distance for the applicator
- Knockdown is quick so no stinging pheromone is released, reducing the possibility of stings
- Safe to use around most electrical equipment, formulated with a high dielectric strength and exhibits no breakdown up to 47,400 volts
- Flame projection is >18", with no flashback
- No staining on polyethylene, polycarbonate, and a number of other plastics

Always read and follow label directions
